

Xtreme team

THE PERFECT TEAM PHOTO EVERY TIME!

TEAM PHOTOGRAPHY

Along with our individual player photography we have all of the tools and experience to capture your team photo!

We utilize our new white screen technology to create a one of a kind virtual team composite!

With our on location white screen technology we can photograph each player individually and then create a virtual team photo! This allows the players to be photographed quickly so they can return to the practice field without having to wait for the team picture!
